**DETAILED ACTION**

***Response to Amendment***

1. Newly submitted claims 28-37 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The new claims recite:

“an input unit adapted to input image data having first and second directions; and  
a control unit adapted to cause a first printer to print image data having one of the first and second directions, image data having the first direction being input in one case, and image data having the second direction being input in another case;

wherein the control unit is adapted to cause a second printer to print image data having a direction the same as image data printed by the first printer.”

Therefore, the newly added claims require more search/reconsideration.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 28-37 withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

2. The amendment filed on 7/9/2008 cancelling all claims drawn to the elected invention and presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03). The remaining claims are not readable on the elected invention for the reason stated above.

Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in

order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.
